

THERMO-INSULATING CLOTHES AVKOTHERM[®] 62T AR

CHARACTERISTICS

Thermo-insulating cloths produced on the basis of ceramic fibres are designed primarily for heat insulation, protection in case of fire related jobs (such as welding, gas cutting), production of thermal protection screens, devices and clothing. The cloths have the following advantages: regular structure, resistant to burning out, same strength in weft and warp.

Technical parameters

Working temperature:	1200°C
pH:	5 – 11
Standard width:	1000/1200 mm
Surface density:	1460 ± 50 g/m ²

Quality Control

The whole production process is supervised in accordance with the Quality System ISO 9001, ISO 14001, OHSAS 18001.

Human hazardous

Not registered.
